

## NEW MIKUNI TDMR $\phi$ 32 carburetor kit Monkey • Gorilla

■ The MIKUNI TDMR  $\phi$ 32 carburetor kit with attached insulator set for optimal use with our Super Head +R, Super Head 4V+R, DOHC Heads, and Desmodromic Twin Cam 4V Heads. With the down draft carburetor, a straighter airflow channel leading to the combustion chamber results in greater intake efficiency. Air-fuel supply volume in high RPM zones is increased, meaning you can enjoy maximum performance from our cylinder heads.

● **Kit includes (for DOHC • DESMO Cylinder Head)**

Mikuni TDMR32 carburetor, Inlet pipe, Inlet adaptor, Insulator, Ignition coil bracket, Fuel line, Main jet, Pilot jet, STD high throttle, Throttle cable.

- MJ=#200, PJ=#27.5, Jet needle=J8-9D03-52 (equipped initially)
- Optional jets : MJ=#145, PJ=#17.5, Jet needle.=J8-9E12-52
- Setting manual included.

● **Kit includes (for Super Head+R, Super Head4V+R Head)**

Mikuni TDMR32 carburetor, Inlet pipe, Inlet adaptor, Insulator, Ignition coil bracket, Fuel line, Main jet, Pilot jet, STD high throttle, Throttle cable.

- MJ=#200, PJ=#27.5, Jet needle=J8-9D03-52 (equipped initially)
- Optional jets : MJ=#145, PJ=#17.5, Jet needle.=J8-9E12-52
- Setting manual included.

★ The kit with included air funnel comes complete with a machined aluminum air funnel (screen included).

※ When attaching the TDMR  $\phi$ 32 carburetor to 138cc kit mounted on DOHC heads or Desmodromic twin cam 4V heads, our air funnel (03-01-1118) and funnel kit (03-05-0039) cannot be mounted due to interference by the funnel and frame (Excludes cases of custom modifications).

※ You cannot mount our steering dumper together in combination when attaching the TDMR  $\phi$ 32 carburetor to 138cc kit mounted on DOHC heads or Desmodromic twin cam 4V heads.

※ These Carburetor kit include throttle cable, however this throttle cable is not "push-pull" type. (Sorry we don't have push-pull type cable)
